

Gardening Workshops

	KS1/KS2 ACTIVITIES
8	HEALTHY PLANTS, HEALTHY PEOPLE Plants and vegetables.
<p>Lunchbox investigation! What food comes from plants grown on a farm or in a garden? What are the different parts of a plant and what do they all do? Construction exercise in teams to 'build' a plant. Meet our worms and find out what they do to help us make the soil good for growing. Learn which animals and insects are 'Friend or Pest'. Try samples of typical foodstuffs from the farm/garden (bread squares, carrot sticks). Grow your own vegetable, in our potting shed, to take home! Finally, take a tractor and trailer ride around the animal paddocks and spot the scarecrows!</p>	
Curriculum Links	Sc2, Sc3 a, b, c, d
Learning Objectives	<ul style="list-style-type: none"> To know what the different parts of a plant are. To learn how to plant seeds and how to take care of plants. To learn what plants need to survive. To be introduced to different plant words and concepts. To understand the importance of plants. To identify the benefits of including plants as party of a healthy diet.
